Getting Started with iOS

1.07 What is Liquid UI for iOS and how can I buy it?

Liquid UI for iOS reimagines the SAP GUI for mobile. Designed with field teams in mind, it brings full SAP GUI functionality to iPhones and iPads, without relying on Fiori, web browsers, or middleware.

With Liquid UI for iOS, you can:

- Run native SAP screens with a touch-optimized experience
- Merge multiple screens or transactions into a single workflow
- Replace input fields with single-tap buttons
- Scan barcodes using the device camera or industrial sleds
- Use gestures like tap, swipe, and zoom for easier navigation
- Integrate native email for SAP workflow actions

Licensing Options

You can obtain a Liquid UI license through one of the following methods:

Method	License Type	Best For
In-App Purchase	Client License	Individual users or small teams
Portal License Manager	Enterprise License	Centrally managed deployment
Bulk Purchase via Sales	Enterprise License	Large-scale or discounted license packages

All license types unlock full functionality within the app.

How to buy a license

To access available licensing options:

1. Open the Liquid UI for iOS
2. Tap the menu icon (≡) and select Request License
3. You'll see three choices:
    - Get Trial License: Submit a request for a 30-day evaluation
    - Liquid UI Portal: Activate a license with your company's License ID or URL
    - Buy from Appstore: Purchase a license directly with your Apple ID

Try before you buy

You can request a 30-day free trial to evaluate the full capabilities of Liquid UI for iOS.

Getting Started with iOS

For trial steps, check out: How do I get a Liquid UI for iOS trial license?

Install or activate a license

Whether you purchased a license or received one via email or from your IT team, you can activate it using a link, QR code, or file.
For activation steps, see: How do I get and install the Liquid UI for iOS license?

For bulk licenses or custom assistance

If you prefer to purchase through LAMP or work with Sales for bulk licensing, Email: **rfi@guixt.com** or Call: **+1 (650) 341-3310**

Without a valid license

If no valid license is installed, the app operates in restricted mode:

- You can connect to only two SAP systems
- A 150-packet limit applies between the app and the SAP server.

To remove these limits, install a trial, client, or enterprise license.
