Designer Installation

2.01 Designer Installation Overview

This section will describe the requirements to install Liquid UI Designer and the process by which it will be installed on a single system. This section covers the following topics:

- System Requirements
- Install Wizard
- Modification and Removal
- **Install Troubleshooting**
- **Licensing**

Note: Make sure that your antivirus software is not blocking Liquid UI files: designer.exe and webscript.dll. You need to have admin privileges to install the designer software.
