Offline Help Files

6.04 Master - Addendum APIs

The following functions form the essential guidelines for GuiXT Offline to function properly. If these are modified in any way, GuiXT Offline may not work properly. For a complete explanation and demonstration of the Master - Addendum APIs, please see the Master and Addendum Records section.

Javascript Objects Specific to Offline

There are some objects that are exported from C++ to JavaScript and are used only for Offline. These encompass the following categories:

- System Global Objects
- SynR3 Global Objects
- Offline Communication Objects
- Database Manipulation Objects
- Screen Manipulation Objects
- SAP Synchronization Functions
