

Android/iOS App Configuration

4.3 Scanning and Adding an existing SAP connection on Liquid UI for iOS/Liquid UI for Android

Liquid UI for Android/iOS provides an option to add your SAP server connection without manual keying connection parameters. You can do this with the help of the QR Code generated using the “[Connection Transmitter](#)” executable.

Learn more about how to connect to my SAP Server without manual keying in [Liquid UI for Android/Liquid UI for iOS](#).
