Web Server Appendices

6.4 Using Web Server with SAP Logon Tickets

Appendix III: Using Web Server with SAP Logon Tickets

Once you have configured a single sign-on method for use with a Web Server, you can also use SAP Logon Tickets to log into a Web Server through the portal. This section will explain how to configure SAP Logon Tickets as a login method for use with the Web Server. The following topics will be covered.

- Creating New Users
- Importing the EPA File
- Changing URL Templates
- Associating Roles with Users
- Creating System Aliases
- Assigning User Permissions
- Defining Backend Systems
- Connecting to Multiple Backend Systems
