Android Installation

3.1 System Requirements

Before installing the Liquid UI Client on your Android device, you must ascertain the compatibility of your device with the application's requirements. Synactive strongly recommends adherence to the system specifications outlined below to ensure a seamless installation.

Liquid UI Client Requirements

- **Version support**:
    - **Minimum**: Android mobile with Lollipop, v5.0 and above
    - **Optimum**: Android mobile with Pie, v9.0 and above
- **Network speed** (**uses TCP/IP**): 50 kbps
- 42MB free space
- Valid Liquid UI license
- Network connectivity to connect to either of the following:
    - SAP ERP application server
    - Liquid UI Server

Liquid UI for SAP Customizations

The following items are necessary for customizing your SAP:

- Liquid UI Server and Liquid UI client licenses
- WS Developer Kit

Liquid UI Server

To perform customizations, it’s necessary to install a Liquid UI Server on your desktop. Please refer to the Liquid UI Server documentation for complete guidance on installing the server.
