iOS Installation

3.1 System Requirements

Before installing the Liquid UI Client on your iOS device, it's important to confirm that your device meets the system requirements for compatibility. Synactive strongly recommends adhering to the following specifications to ensure a smooth installation process.

Liquid UI Client Requirements

- **Version support**:
    - Minimum: iOS 8.0 or above
    - Optimum: iOS 9.0 or above
- **Network speed (uses TCP/IP)**: 50 kbps
- **Available storage space**: 50MB free space
- **Valid Liquid UI license**
- **Network connectivity** to connect to either of the following:
    - SAP ERP application server
    - Liquid UI Server

SAP Customization for iOS

To customize your SAP environment, the following items are required:

- Valid Liquid UI Server and Liquid UI Client licenses
- Liquid UI Developer Toolkit

Liquid UI Server

To perform customizations, you need to install a Liquid UI Server on your desktop. Please refer to the Liquid UI Server documentation for complete guidance on installing the server.
