Designer Installation

2.02 Designer System Requirements

To install Liquid UI Designer, it is first necessary to ensure that the target system can support the installation. The host system can be any of the following Microsoft operating systems. The links will take you to the individual system requirements for each operating system.

- Windows 10
- Windows 8
- Windows 7
- Windows Vista
- Windows XP
- Windows Server 2012
- Windows Server 2008
- Windows 2003 Server (Standard Edition)

For all systems, the install will require the following minimum system requirements:

CPU

A 1.5GHz single-core 64-bit CPU or a 1.3GHz dual-core CPU is required to run Designer.

RAM

You must have a minimum of 512 megabytes of RAM on your target system. We recommend at least 1 gigabyte.

HDD

You must have 2 gigabytes of free space on your hard drive to install Designer.

Browser

You must have either Firefox 3.0 or above, or Internet Explorer 7 or above.

SAP GUI

You need to have SAP GUI 3.0 or above installed.
