Designer Features

5.01 Customizing SAP Using Designer Overview

There are two editors included in the Designer. These are as follows:

Graphical (WYSIWYG) Editor

The graphical WYSIWYG (What You See Is What You Get) editor enables you to change your layout graphically and the appropriate script will be generated automatically.

Script Editor

The script editor enables you to edit your script at the code level. You can input your script directly and make any modifications necessary.

These two editors are explained and demonstrated in more detail in the following sections.

- **WYSIWYG Editor**
- Script Editor
