Debugger Introduction

1.3 System Requirements

Liquid UI Debugger can be installed on the host system with any of the following Microsoft operating systems. The links will take you to the individual system requirements for each operating system.

- Windows 10
- Windows 8
- Windows 7
- Windows Vista
- Windows XP
- Windows Server 2012
- Windows Server 2008
- Windows 2003 Server (Standard Edition)
- Windows 2003 Server (Enterprise Edition)

For all systems, the install will require the following minimum system requirements:

CPU

A 1.5GHz single-core 64-bit CPU or a 1.3GHz dual-core CPU is required to run Debugger.

RAM

You must have a minimum of 512 megabytes of RAM on your target system. We recommend at least 1 gigabyte.

HDD

You must have 2 gigabytes of free space on your hard drive.

SAP GUI

You need to have SAP GUI 3.0 or above installed and configured with GuiXT.
